Higher back-up and custom load configuration possible | 3.88kWp and 5.12kWp variants can operate inverter-based air-conditioner

Features

- Maximizes solar usage
- In-built smart battery management system for prolonged battery-life
- Digital display for easy readability
- Self-protecting active fault monitoring unit for safe operations
- Peace of mind guaranteed with 25 year warranty on solar modules
- Mounting possible on virtually all types of roof profiles

Benefits

- Say goodbye to black-outs
- Any time power
- Low dependence on erratic grid
- Run critical loads on solar
- Prolong battery life
- Trusted, dependable and long lasting system
- Green energy, clean energy

Components

- Solar array ranging from 1.2kWp to 5.12kWp
- Safe and secure inverter ranging from 2kVA to 7.5kVA
- 150Ah tubular solar batteries⁺
- DIY kit or hot dip galvanized mounting structure

+ Lithium-ion optional
